Operates without being attached to air hoses or cords

INSTA-AIR™ | MOBILE AIR SERIES

The Insta-Air™ Inflator is the newest addition to our Mobile Air Series, which continues to design the inflation technology of tomorrow. Insta-Air™ was created to provide a portable solution for filling airbags where there are no airlines, air compressors, or even power outlets. Where loaders were once required to be tethered into a compressed airline system, they can now inflate dunnage airbags anywhere.

Part #	Description
MA3100	Insta-Air™ Inflator Kit with SuperFlow Tip (Paper Airbags)
MA3200	Insta-Air™ Inflator Kit with TurboFlow Tip (Vinyl or Poly-woven Airbags)

Lightweight Gorilla Polywoven Airbag

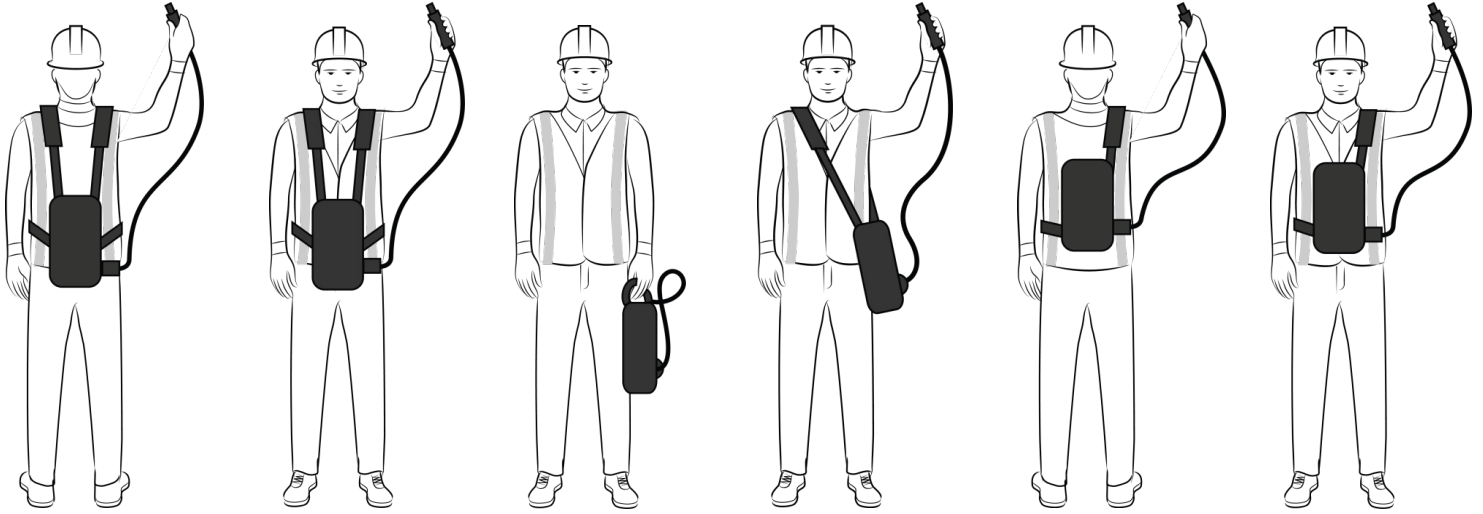

Lightweight Zebra Paper Airbag

Big Foot Vinyl Airbag

6 DIFFERENT WAYS TO WEAR

FILL AIR BAGS ANYTIME & ANYWHERE

The Insta-Air™ is a battery powered inflator that allows users to inflate Shippers Products dunnage airbags without air lines or air compressors. Insta-Air™ enables users to be completely mobile (no cords or air hoses) on the loading dock, and can be worn a variety of ways to accommodate user preference. Insta-Air™ provides users the ability to carry the air they need on them, and fill airbags on the go.

INSTA-AIR™ FEATURES & BENEFITS

On/off power button on handle for fast inflation of airbags

2 batteries and charger included for maximum uptime

Fill airbags as you go – easy to get into and out of trailers

Simple snap power connection for quick battery changes

Interchangeable screw-on hose tips for use with Shippers airbags

Removable straps for flexible wear options
