

# Model FTA™ Series Drum Transporters!

Safe, sure, effective. Simply slide FTA attachment onto the forks of any lift truck, hook up the convenient safety chain on the unit and go! Steel, plastic and even fiber (cardboard) drums can be easily handled by any male or female operator- with no manhandling! Even the new "W" style ISO drums can be safely handled. A first - only from Liftomatic!

**Both tight head and open top drums can be safely transported with the FTA. Even newer style plastic drums are easy to handle.**

Cushioned belt-cradle™ technology ensures safe protection to drum(s) sidewall, keeping labels and printed logos safeguarded, and your company image intact!

Automatic and mechanical Parrot-Beak® clamping technology means a safe, positive grip on all drum chimes. Handle up to 1500# per drum with confidence!

### AVAILABLE OPTIONS
