

ERGO-POWER™ Series Drum Transporters!

Make Drum Movement Safe, Easy, Effective For All Male and Female Operators

Counter balanced, heavy duty industrial battery power with 360° turning radius allows for tight aisle movement!

Single and added safety "double Parrot-Beak™" clamp systems now available!

Swing away handle for easy movement in narrow aisles. 360 degree rotation!

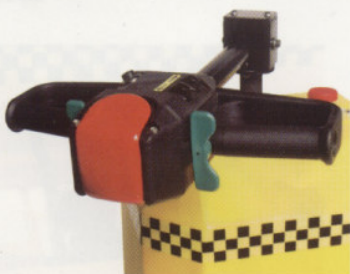

Heavy duty cylinder adaptable to loads up to 1000# in weight

Model Ergo 750-PWPL

The all-new Ergo-Power™ series from Liftomatic! Now your operators can load and unload trailers, move drums to and from work stations, pallets, scales and containment areas and fire cabinets, all with one piece of equipment! Fully powered drive wheels, start-stop and lift/lower features mean any operator, male or female can now move drums in your plant, safely, efficiently, profitably! Available in adjustable straddle leg configuration or fully counterbalanced for head-on work at pallets, storage cabinets and retention areas!

Fully integrated programmable controller/steer throttle allows easy adjustment for your requirements. Regenerative braking, full function lift, lower, throttle forward and reverse. Safety horn, on/off switch and emergency shut off all standard!

Fully self-contained power unit provides years of reliable service and are protected from damage and the elements. Easy on your maintenance department and fully accessible for any service requirements.

Easy to use battery charge (included with unit) recharges from full drain to full cycle in only 6 hours!

ERGO-CB[®] Series "Parrot-Beak[®]" Drum Transporters!

Model Ergo650-CB-ML

Fully counterbalanced, the Ergo650-CB-ML allows the operator to lift and lower all steel, plastic and fiber drums weighing up to 800 pounds with ease!

Exclusive "Parrot-Beak[®]" clamp system and easy to use foot pedal lift and lower function provide a sure grip every time! Optional double parrot-beak[®] system and spark-resistant packages available.

For the first time, you can now reach straight-on to all pallets, spill pallets, fire cabinets, retention areas, scales, racks and much more. The new Ergo-CB series from Liftomatic allows the operator to approach any drum safely from a "head on" position, requiring a minimum of space while maximizing efficiency. Options available with lift heights up to 36" (24" lift height standard). True innovation from Liftomatic!

Place drums in and out of fire, safety or storage cabinets with ease!

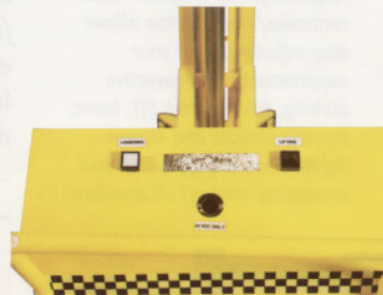

Work to and from any wood or plastic pallet-straight on!

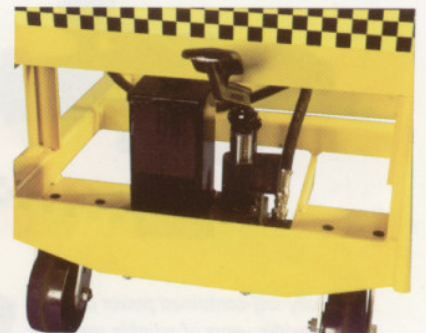

Model Ergo650-CB-PL

Same versatile features as the manual unit, the Ergo650-CB-PL comes equipped with a 24V power lift and lower system, allowing the operator to raise and lower drums with a simple push of a button. Unit comes with batteries and charger. Optional double parrot-beak[®] system and spark resistant packages available.

Ergonomically safe and efficient lift and lower system and convenient charging receptacle!

Fully enclosed foot pump assembly lifts 1.25" with each pedal stroke. Durable floor lock standard on every unit!
