

HYDRA-HANDLER SUPER

Single or Double compartment available

The **Hydra-Handler SUPER** is a narrow single stack battery changer with one or two compartments.

Customers converting from an overhead, manual, or pallet jack mounted battery exchange system can cut their battery change times in half with the **Hydra-Handler SUPER**.

FEATURES:

- Pass through design on both compartments
- Overall width - 52"
- Lift system - Direct lift by 2 hydraulic cylinders
- Roller deck lift (R)- LOW - 6" HIGH - 26"
- Fixed operator compartment (does not raise with roller deck)
- Drive system - Spring loaded 5th wheel (8"dia. x 6"w Polyurethane) floor drive with 4 rigid casters
- Extractor arm - Rollover and travel - independent sprocket and chain drive (Arm rotates low to handle short batteries of about 15" tall)
- Construction - Base frame - 4" x 3" x 5/16" wall, structural steel tubing
- Weight - 5,250 lbs.

At a price point lower than a **Single Level Hydra-Handler**, the **Hydra-Handler SUPER** is a **safe, cost effective, efficiently sized, pass through**, battery exchange solution for customers with as many as 30 lift trucks

PERFORMANCE:

- | | |
|---|--|
| <ul style="list-style-type: none">• Travel speed - 125 FPM• Capacity - 7,000 lbs• Extractor arm capacity (vacuum) 1,200 lbs (push), 1,050 lbs (pull)• Vacuum cup - 12" dia | <ul style="list-style-type: none">• Lift speed - 8FPM• 8 power rollers to speed extraction• HPU Motor - 5 HP 460vac, 3ph, 60hz driving a fixed displacement gear pump for 6gpm @ 1250psi |
|---|--|

SAFETY:

- Foot Pedal
- Travel interlock if extractor arm is beyond frame (Optional)

OPTIONS:
